

## RENTAL

At Conference Technologies, Inc.® we understand that sometimes purchasing equipment is not always the right solution for you. That's why we have one of the nation's largest inventories of audio visual equipment available for rent and we support it with a large, experienced technical and engineering staff. Our team travels coast to coast and even internationally, staging events and worship services that range in scope from simple to complex.

There are countless ways that audio visual equipment can enhance the quality of any conference, presentation or event. From satellite campuses to expo halls, Conference Technologies, Inc.® has the technology and gear that you need.

## EVENT SERVICES

No matter the size or scope of your event, Conference Technologies, Inc.® will be there with you every step of the way. Our ten offices offer coast-to-coast service, and our high-end inventory of equipment and expert staff make us one of the best in the field of event production.

Conference Technologies, Inc.® specializes in audio visual systems integration. We consult, design, and engineer the most advanced conference, presentation, and training facilities across the United States. If you're interested in learning more about our services or how we might be able to assist with your audio visual needs, please give us a call or visit our website.

HOUSE OF WORSHIP  
SOLUTIONS

CREATING A VISION FOR TECHNOLOGY

# House of Worship

Clear sound and effective visuals are crucial in today's worship services and religious education. Conference Technologies, Inc.® can help you use technology to better serve God and your community. Our team of engineers is highly experienced with live sound and video, as well as specialized computer software designed for weekly services.

Conference Technologies, Inc.® consultants can help you with sound reinforcement, projection systems, large format displays, electronic hymnals, worship presentation packages, lighting and dimming systems, cameras and camera controls, room and environmental acoustics, noise and vibration control, video and audio conferencing, classroom AV, and digital signage. We routinely work in:

- Sanctuaries
- Gymnatoriums
- Auditoriums
- Cry Rooms
- Multi-Media Rooms
- Satellite Campuses
- Cafeterias and Cafés
- Broadcast Studios
- Classrooms
- Streaming Services

For more information on our House of Worship services, please visit [www.conferencetech.com/worship](http://www.conferencetech.com/worship).

## ////// WORSHIP SERVICES //////////////

Many churches, synagogues and other houses of worship are making use of audio visual technology to automate functions such as multimedia presentations, displays, audio and lighting.

Our specialized knowledge allows us to properly design and install all required components to create a communication system to enhance your worship experience.

From creating clear visuals to exemplary sound support, we ensure that your installed system will be easy for your users to control and fully expandable.

Call and ask for one of our system consultants to see how we can engineer the perfect solution for your worship facility.

## ////// RELIGIOUS EDUCATION //////////////

Conference Technologies, Inc.® understands the important dynamics in designing and integrating a successful audio visual system for your religious education facility. We can design a system to meet your current needs, budget and technical requirements, or we can improve upon your current installation. We will make it easier for you to connect with your students.

We design and install video and audio systems tailored to the unique requirements of any educational facility. We can help you with individual multimedia systems, build or upgrade a campus or multi-campus AV network.

Ask about the technologies we use in today's classrooms such as distance learning and webcasting, video and audio conferencing, classroom control systems, remote asset management, help desk systems, projection and large screen displays, sound reinforcement, interactive whiteboards, room acoustics, noise control and digital signage.
