

# RENTAL

At Conference Technologies, Inc.® we understand that sometimes purchasing equipment is not always the right solution for you. That's why we have one of the nation's largest inventories of audio visual equipment available for rent and we support it with a large, experienced technical and engineering staff. Our team travels coast to coast and even internationally, staging events and meetings that range in scope from simple to complex.

There are countless ways that audio visual equipment can enhance the quality of any meeting, presentation or event. From conference rooms to expo halls, Conference Technologies, Inc.® has the technology and gear that you need.

We offer a range of services, including:

- Projection
- Pipe and Drape
- Monitors
- Sound Systems
- Wireless Mics
- Lighting
- Truss
- Computers

**VIDEO CONFERENCING  
SOLUTIONS**

CREATING A VISION FOR TECHNOLOGY

# Video Conferencing Services

Video conferencing allows users to remotely hold face-to-face conversations while sharing presentations, documents, spreadsheets and more in a real-time environment. By utilizing video conferencing rental services, progressive organizations and individuals are removing the barriers of distance and time, improving productivity and collaboration, all while reducing overhead costs of off-site meetings.

Conference Technologies, Inc.® is North America's proven provider of video conferencing rental equipment and facilities.

Video conferencing is perfect for:

- Corporate Meetings
- Training
- Distance Learning
- Employment Interviews
- General Meetings
- Depositions
- Telemedicine
- Concierge Services

Call us today to see how our video conferencing rental experts can customize the perfect solution for your next meeting.

## ////// MCU SERVICES //////////////////////////////////////

Our bridging services provide organizations with a multipoint bridge (MCU) with dedicated bandwidth. This option is suitable for those that do not want to invest in purchasing their own MCU.

- Hosted MCU with dedicated IP/ISDN bandwidth
- Enables multiple sites to meet simultaneously
- Option for video conferencing to be launched and remotely managed by Conference Technologies, Inc.®
- Connects both HD and SD (Standard Definition) endpoints over IP, ISDN, H.232 and SIP networks

We also offer additional services for instances when you need ISDN dial in or video conferencing recording.

- ISDN Gateway Service: when you need to dial into ISDN using an IP network
- Conference Recording: to record point-to-point conferences, presentations and multipoint conferences

## ////// CONCIERGE SERVICES //////////////////////////////////////

Accomplish more in your work day by utilizing our concierge video conferencing rental services.

We offer full service solutions to those who do not have their own dedicated internal bridging or infrastructure. We have access to thousands of state-of-the-art conferencing facilities across the globe to get you connected.

Our team of video conferencing experts will ensure your network connections work properly, and we will tailor our services to meet your individual requirements.

Let us handle all of the details of your meeting, from initial set up and scheduling to monitoring connections. For more information on our video conferencing rental services, please visit [www.conferencetech.com/videoconferencing](http://www.conferencetech.com/videoconferencing).
