

VIDEO CONFERENCE SOLUTIONS

**HIGH DEFINITION, FACE-TO-FACE INTERACTION
AT A FRACTION OF THE COST OF TRAVEL**

Conference Technologies, Inc.® is dedicated to simplifying your next video conference experience. Our specialists ensure seamless connections by testing networks prior to your call, and monitoring quality throughout your session. We deliver only the latest audio, video and lighting technology for a reliable connection, every time. Your video conference call will be configured to professional standards to ensure a successful, secure, and economical solution.

When you work with us, you gain immediate access to an affordable, world-wide network of over 10,000 video conferencing suites in over 3,000 cities. We bring trusted experience, with a focus on the details, and advanced options available to fit your needs.

If you need bridging service, we provide multipoint communication with reliable IP and ISDN connections, globally. Along with standards-based video conferencing platforms, we also have the ability to connect Skype, Google Talk and a range of other mobile solutions to your call. Whether your video conference is for 5 people or 50, Conference Technologies, Inc. can give you a collaborative, high definition experience 24 hours a day, seven days a week.

Video Conference Applications:
